

# WGS EQUIPMENT & CONTROLS, INC.

Manufacturers' Representative

3060 Plaza Dr. Suite 110  
Garnet Valley, PA. 19060  
Phone 610-459-8800  
Fax 610-459-8849  
www.wgsequipment.com

Proudly Serving Pennsylvania, New Jersey, Delaware, Maryland, Virginia, and New York for over 30 Years

## DANIEL DIVISION OF EMERSON PROCESS MANAGEMENT

Orifice Plates, Senior & Junior Fittings, Orifice Flanges, Meter Tubes, Straightening Vanes, Gas & Liquid Turbine Meters, Totalizers, Ultrasonic Gas Flow Meters for Custody Transfer & Check Metering, DANALYZER Gas Chromatographs, Complete Flow & Energy Measurement Systems.

## BARKSDALE

Pressure and Vacuum Switches (Electromechanical), Level Switches, Temperature Switches, Pressure Transducers, Directional Control Valves, Level Sites for Tanks, Flow Switches.

## CASH VALVE INC.

Pressure and Temperature Regulating, Back Pressure, Relief, Vacuum, Bypass and Cryogenic Valves, Strainers and Back Flow Preventors. Designed for Water, Oil, Air, Steam, Cryogenic, and High Purity Applications.

## METTLER-TOLEDO INGOLD

INGOLD-Sensors and Systems for the Measurement and Control of pH/ORP-Redox, Carbon Dioxide, Dissolved Oxygen, Conductivity and Turbidity in Biotechnology, Chemical Plant, Food, Beverage, Industrial and Laboratory Applications.

## PEPPERL + FUCHS

FieldConnex Fieldbus Products, Intrinsic Safety Solutions, HART Interfacing, Graphical Interfaces and Devices, Level Sensors, Lightning Protection & Surge Suppression, Power Supplies, BEBCO Purge and Pressurization, Signal Conditioning Solutions.

Yamatake America, Inc.

## Azbil USA / Yamatake Instruments

Advanced State of the Art Pressure and DP Transmitters, World Class Magnetic Flow Meters Including unique 2-wire Mag Flow Meters and Problem Solving HENRI (High Energy Noise Reducing Instrument) Mag Flow Meters.

## GENERAL MONITORS

Safety Monitoring Systems, Smart H2S Sensors, Combustible LEL Gas Sensors with Readout/Relay

## PROCESS LEVEL TECHNOLOGY, Ltd.

Process Level Technology, Ltd. offers full support of liquid level measurement including Fluid Recovery Pumps/Systems, Magnetostrictive Transmitters, Seal Pots and more...

Modules, Infrared Hydrocarbon Gas Sensors (Point type and Open Path) Flame Detectors, Toxic Gas Detectors.

### SARTORIUS

Offers high accuracy and repeatable solutions for weighing, measurement and control in the production processes of the pharmaceutical, chemical, food, and manufacturing industries. Cost effective weighing electronics and batching systems. Sartorius also offers Industrial Platform Scales for weighing, parts-counting, check-weighing, and batching

### FLUIDIC TECHNIQUES

HHR FlowPak - No Upstream or Downstream Piping Requirements, Primary Elements, Flow Nozzles, Venturis, HHR Flow Tubes, A.S.M.E., Flow Nozzle Meter Tubes PTC-6 and PTC-6.1.

### SPECTRASENSORS

SpectraSensors, Inc. is a leading manufacturer of optically based gas analyzers and moisture analyzers for analytical process markets. Typical applications include measurement of moisture, carbon dioxide, and other corrosives in natural gas pipelines, online process monitoring ITT SCADA Products.

### EAGLE RESEARCH CORP.

Intelligent Remote Terminal Unit (RTU) product line. Our hardware products are modular in design and include a library of configurable functions to provide solutions in a wide variety of measurement and control applications.

### WELKER ENGINEERING

Creating innovation products to solve complex problems for the petroleum and natural gas industries. Including the most innovative control valve design in decades to the gas industry. Gas Odorant Monitoring

### METTLER-TOLEDO

**THORNTON**-Sensors and Systems for the measurement of Conductivity/Resistivity, pH/ORP, Dissolved Oxygen (DO), Ozone, temperature, flow, and Total Organic Carbon (TOC) in pure and ultra-pure water treatment systems for pharmaceutical and critical power/ steam make-up applications. Continuous TOC measurement meets USP 643, 645, and EP 2.2.44.

### OKLAHOMA SAFETY EQUIPMENT CO.

Rupture Disks, Rupture Panels, Holders, Sanitary Disks and Alarm Systems.

## ENARDO

**Safety and Environmental Vapor Control Equipment  
Manufacturing and Engineering Solutions**

### ENARDO

A world leader in the development and manufacture of vapor control equipment used anywhere liquids and gases are processed or stored:

- Detonation and flame arrestors
- Low pressure venting devices
- Emergency vents
- Gauge hatches

### A + CORPORATION

A+ Corporation, LLC develops, manufactures, and markets Analyzer Sample Conditioning Components and Moisture / Corrosion Control Products.

### SEVERN TRENT SERVICES (EST Products)

EST Wet Scrubbing Systems remove toxic and noxious gases, particulates, odors, fumes, and dust from process and exhaust gas streams. Other ejector-venturi products include Exhausters, Gas Jet Compressors, Steam Jet Vacuum Systems, Educators, Syphons, Mixers, and Desuperheaters.

### Taylor Valve Technology

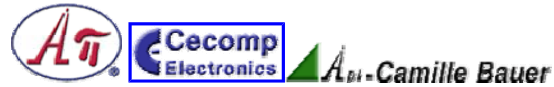

#### Taylor Valve

Conventional / Back Pressure and Pilot Safety Relief Valves, Choke Valves, Liquid Level Indicators, Precision Electronic Gauges, Gauge Plugs and Probes for non-shut off pressure sampling.

### Wedge Measurement and Control

Meter tubes, skid-mounted meter runs, and packaged measurement stations custom designed and built-to-order per your specifications. Manufactured, inspected, and tested to meet AGA and API standards.

### ABSOLUTE PROCESS INSTRUMENTS

**API:** Analog Signal Conditioners, Signal Converters, Repeaters, Splitters, Isolators, Transmitters, Current Sensors - **Cecom Electronics:** Digital Pressure Gauges, Digital Vacuum Gauges, Transmitters, and Alarms - **API-Camille Bauer:** Signal Conditioners, Electric Power Transducers, Electric Power Monitors, Rotary Position Transducers

### ILS Automation

Fermenter / Bio-Reactor Controllers for new and retro-fit applications, Batch and SCADA Reporting, Probes and Signal conditioning for laboratory, batch, manufacturing and business applications.

### Accutech Wireless Instruments

**Open the box, install, and power up.** It's really that simple. With rough-and-ready Accutech wireless instrumentation, critical process data is wirelessly moved upstream from up to 100 field-based sensors to your centralized data system or RTU, with minimal installation and maintenance efforts; and thanks to years of field experience to back them up, you know that your Accutech equipment will be in service, reliably and economically, for the long haul.

### Intemco

Superior quality temperature sensors, transmitters, thermowells and accessories for sanitary and industrial applications.
